AUSTRALIAN INTERNATIONAL RECORDS

At its 1969 Annual Conference, the Amateur Athletic Union of Australia decided to create an official list of what are designated Australian International Records. An Australian International Record is one established under I.A.A.F. Rules in a country other than Australia by an athlete who was either born in Australia or who has resided in Australia for at least three years prior to the date of the performance claimed as a record, provided that such performance must be equal or superior to the corresponding Australian National Record.

AUSTRALIAN RANKING LISTS for 1974-75

It is felt that the lists of best performances in each of the years from 1950-51 which have been included in previous Almanacs are of doubtful value and the practice has been discontinued. There will be substituted in future issues an all-time list of best performances to a depth of between ten and twenty.

The conversion of times for performances in Imperial measure events to theoretical times for the corresponding metric distances has also been dropped, but lists have been included for 100 yards and 1 mile which continue to be conducted with significant frequency.

Overseas performances have been included in the main lists instead of being shown in a separate section.
